

BSI Standards Publication

Anaesthetic and respiratory equipment — Non-interchangeable screw-threaded (NIST) low-pressure connectors for medical gases

National foreword

This British Standard is the UK implementation of EN 15908:2010. It partially supersedes BS EN ISO 5359:2008. It is intended that BS EN ISO 5359:2008 will be revised to remove requirements for NIST connectors.

The UK participation in its preparation was entrusted to Technical Committee CH/121/6, Medical gas supply systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
