

BSI Standards Publication

Railway applications — Automatic coupler — Performance requirements, specific interface geometry and test method

National foreword

This British Standard is the UK implementation of EN 16019:2014.

The UK participation in its preparation was entrusted to Technical Committee RAE/3/-/7, Railway applications - Couplers.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
