

BSI Standards Publication

Geosynthetic clay barriers — Determination of water flux index — Flexible wall permeameter method at constant head

National foreword

This British Standard is the UK implementation of EN 16416:2013.

The UK participation in its preparation was entrusted to Technical Committee B/553, Geotextiles and geomembranes.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
