

BSI Standards Publication

Conservation of cultural heritage — Cleaning of porous inorganic materials — Laser cleaning techniques for cultural heritage

National foreword

This British Standard is the UK implementation of EN 16782:2016.

Use of this standard or any supporting documentation does not of itself ensure compliance with statutory artificial optical radiation protection requirements in the various EU member states.

The European Agency for Safety and Health at Work (EU-OSHA) publish a non-binding guide to good practice for implementing Directive 2006/25/EC - artificial optical radiation, which may be used to provide a minimum requirement of the directive. Individual member states may impose conditions which exceed the minimum. In the UK, the Health and Safety Executive is the enforcing body for the statutory instrument 'The Control of Artificial Optical Radiation (AOR) at Work Regulations 2010'. The information contained within EN 60825-1:2014 may also be of relevance to users.

The UK participation in its preparation was entrusted to Technical Committee B/560, Conservation of tangible cultural heritage.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
