

BSI Standards Publication

Timber structures — Test methods — Determination of the long term behaviour of coated and uncoated dowel-type fasteners

National foreword

This British Standard is the UK implementation of EN 16784:2016.

The UK participation in its preparation was entrusted to Technical Committee B/518, Structural timber.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
