

BSI Standards Publication

Workplace exposure - Measurement of dustiness of bulk materials that contain or release respirable NOAA and other respirable particles

Part 1: Requirements and choice of test methods

National foreword

This British Standard is the UK implementation of EN 17199-1:2019.

The UK participation in its preparation was entrusted to Technical Committee EH/2/2, Work place atmospheres.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
