

BSI Standards Publication

**Foodstuffs — Determination elements and their
chemical species — Determination of organomercury
in seafood by elemental mercury analysis**

National foreword

This British Standard is the UK implementation of EN 17266:2019.

The UK participation in its preparation was entrusted to Technical Committee AW/275, Food analysis - Horizontal methods.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
