Provision of services

Part 2: Services contracts — Guidance for the design,
content and structure of contracts

National foreword

This British Standard is the UK implementation of EN 17371-2:2021.

The UK participation in its preparation was entrusted to Technical Committee SVS/21, European Service Standards.

A list of organizations represented on this committee can be obtained on request to its committee manager.

The UK implementation of EN 17371-2:2021 includes National Annex NA and National Annex NB, appended at the back of this document, which contain some of the content of Annex A and Annex B, respectively, of the draft version of EN 17371-2, which were omitted from the final published version of the standard. They have been included to provide examples of different service contract structures and clauses for illustrative purposes only.

The UK committee believes that these annexes are necessary to illustrate to the user how the content in the body of the standard can be brought together in a traditional contract structure. They also provide examples of how such clauses could be drafted.
