

BS EN 18120-5:2026

BSI Standards Publication

Packaging — Design for recycling of plastic packaging

Part 5: Guideline for PET rigid packaging (except bottles)

National foreword

This British Standard is the UK implementation of EN 18120-5:2026.

The UK participation in its preparation was entrusted to Technical Committee PKW/0/-/10, Packaging - Plastics.

A list of organizations represented on this committee can be obtained on request to its committee manager.

The UK committee would like to advise users that some aspects of the guidelines within BS EN 18120-5:2026 are based on a technology which is not currently available in the United Kingdom. UK guidelines such as RECOUP’s *Recyclability by Design* (2024) differ from the CEN standards for this reason, although there is every chance this will change in the near future if the new technology is introduced.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication.
