

BS EN 1906:2012

BSI Standards Publication

Building hardware — Lever handles and knob furniture — Requirements and test methods

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN 1906:2012. It supersedes BS EN 1906:2010 which is withdrawn.

BSI, as a member of CEN, is obliged to publish EN 1906:2012 as a British Standard. However, it should be noted that the UK committee voted against the adoption of this standard during the Unique Acceptance Procedure, primarily because this revision of EN 1906:2010 introduces 6 new classifications for fire testing in Clause 4.1.5, which were not agreed by Working Group WG4.

The UK participation in its preparation was entrusted to Technical Committee B/538/4, Building hardware.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
