

Stationary source emissions — Determination of the mass concentration of PCDDs/PCDFs and dioxin-like PCBs —

Part 3: Identification and quantification of PCDDs/PCDFs

The European Standard EN 1948-3:2006 has the status of a
British Standard

ICS 13.040.40

Confirmed
August 2010

National foreword

This British Standard is the official English language version of EN 1948-3:2006. It supersedes BS EN 1948-3:1997 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee EH/2, Air quality, to Subcommittee EH/2/1, Stationary source emissions, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
