

**BS EN 27941 :
1994
BS 2000 :
Part 405 : 1994
ISO 7941 : 1988**

Methods of test for

Petroleum and its products

Part 405. Commercial propane and butane - Analysis by gas chromatography

(Identical with IP 405/94)

The European Standard EN 27941 : 1993 has the status of a
British Standard

UDC 665.725.3/.4:543.544

National foreword

This British Standard, having been prepared under the direction of the Petroleum Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 March 1994. It is the English language version of EN 27941 : 1993 *Commercial propane and butane - Analysis by gas chromatography*, published by the European Committee for Standardization (CEN), which endorses ISO 7941 : 1988, published by the International Organization for Standardization (ISO).

This British Standard supersedes BS 7276 : 1990, which is withdrawn.

Due to the implementation of ISO 7941 : 1988 as a European Standard and as a Part of BS 2000, this British Standard has been given a different number to BS 7276 : 1990. However, there are no other differences between this British Standard and BS 7276 : 1990.

BS 2000 comprises a series of test methods for petroleum and its products that are published by the Institute of Petroleum (IP) and have been accorded the status of a British Standard. Each method should be read in conjunction with the preliminary pages of 'IP Standard methods for analysis and testing of petroleum and related products' which gives details of the BSI/IP agreement for publication of the series, provides general information on safety precautions, sampling and other matters, and lists the methods published as Parts of BS 2000.

The numbering of the Parts of BS 2000 follows that of the corresponding methods published in 'IP Standard methods for analysis and testing of petroleum and related products'. Under the terms of the agreement between BSI and the Institute of Petroleum, BS 2000 : Part 405/BS EN 27941 will be published by the IP (in 'Standard methods for analysis and testing of petroleum and related products' and as a separate publication). BS 2000 : Part 405 : 1994 is thus identical with IP 405/94.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
