

Portable fire extinguishers —

**Part 8: Additional requirements to
EN 3-7 for the construction, resistance
to pressure and mechanical tests for
extinguishers with a maximum
allowable pressure equal to or lower
than 30 bar**

The European Standard EN 3-8:2006 has the status of a
British Standard

ICS 13.220.10

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 3-8:2006. It partially supersedes BS EN 3-3:1996. BS EN 3-8:2006, together with BS EN 3-9:2006, updates and amends the requirements that were previously contained in BS EN 3-3:1996, which is now withdrawn.

The UK participation in its preparation was entrusted to Technical Committee FSH/2, Fire extinguishers.

A list of organizations represented on FSH/2 can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2007
