Aerospace series - Electrical contacts used in elements of connection

Part 003: Contacts, electrical, female, type A, crimp, class S - Product standard

National foreword

This British Standard is the UK implementation of EN 3155-003:2019. It supersedes BS EN 3155-003:2005, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee ACE/6, Aerospace avionic electrical and fibre optic technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

The CEN correction notice issued 05 February 2020 provided a revised English language text, incorporating the following editorial corrections:

- There were figures wrongly inserted between the Figure 1 and its key text
- page break inserted between European foreword and Scope
- page break inserted before section 4.2
- page break inserted after figure 6 (text “optional design” should be above “figure 7”)
- page break inserted between table 1 and section 4.3
- page break inserted before section 4.5
- page break inserted before table 4 (font changed to 9pt so that table remains on 1 page)
- page break inserted before table 8 (font changed to 9pt so that table remains on 1 page)
- section 5 unnecessary vertical line removed from designation figure

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
