

Aerospace series — Titanium alloy TI- P64001 (Ti-6Al-4V) — Annealed — Bar for machining — $D < 110$ mm

ICS 49.025.30

National foreword

This British Standard is the UK implementation of EN 3311:2009. Together with BS EN 3355:2012, it partially supersedes BS 3TA 11:2009+A1:2017 for the following forms:

- Round bar, limiting ruling section <110mm.
- Extruded section, limiting ruling section 150mm

The UK participation in its preparation was entrusted to Technical Committee ACE/61/-/49, Titanium and its Alloys for Aerospace Purposes.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 October 2009
