

BSI Standards Publication

**Aerospace series —
Bearing spherical plain,
metal to metal, in corrosion
resisting steel, cadmium
plated — Wide series —
Dimensions and loads —
Inch series**

National foreword

This British Standard is the UK implementation of EN 4266:2013.

The UK participation in its preparation was entrusted to Technical Committee ACE/12, Aerospace fasteners and fastening systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

CAUTION. Bearings conforming to BS EN 4266 have cadmium as a plating material, which has been restricted and or banned in many countries owing to environmental and health concerns. Users should consult local officials if they have questions concerning the use of cadmium-plated parts.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
