

BSI Standards Publication

Aerospace series – Sleeving, heat-shrinkable, for binding, insulation and identification

Part 103: Fluoroelastomer sleeves – Operating temperature
-55 °C to 200 °C – Product standard

National foreword

This British Standard is the UK implementation of EN 4708-103:2019.

The UK participation in its preparation was entrusted to Technical Committee ACE/6, Aerospace avionic electrical and fibre optic technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
