

Alarm systems — Access control systems for use in security applications

Part 1: System requirements

The European Standard EN 50133-1:1996, with the incorporation of amendment A1:2002, has the status of a British Standard

ICS 13.320

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GW/1, Electronic security systems, upon which the following bodies were represented:

- Association of British Insurers
- Association of Chief Police Officers of England and Wales
- Association of Security Consultants
- British Gas plc
- British Security Industry Association
- British Telecommunications plc
- Consumer Policy Committee of BSI
- Department of the Environment (Building Research Establishment)
- Electrical Contractors' Association
- Electrical Installation Equipment Manufacturers' Association (BEAMA Ltd.)
- European Association of Security Equipment Manufacturers
- Fire Brigades Union
- Master Locksmiths' Association
- National Approval Council for Security Systems
- Post Office
- Security Facilities Executive
- Security Systems and Alarms Inspection Board

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 March 1997
