

Electrical apparatus for use in the presence of combustible dust —

Part 1-2: Electrical apparatus protected by enclosures — Selection, installation and maintenance

The European Standard EN 50281-1-2:1998, with the incorporation of amendment A1:2002, has the status of a British Standard

ICS 29.260.20

National foreword

This British Standard is the English language version of EN 50281-1-2:1998, including amendment A1:2002, Corrigendum August 1999 and Corrigendum December 1999. BS EN 50281-1-1 and BS EN 50281-1-2 supersede BS 6467-1:1985 and BS 6467-2:1988 which will be withdrawn on 2003-06-30.

The UK participation in its preparation was entrusted by Technical Committee GEL/31, Electrical apparatus for explosive atmospheres, to Subcommittee GEL/31/20, Apparatus for use in the presence of ignitable dust, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 13 and a back cover.
