Multi-element metallic cables used in analogue and digital communication and control -

Part 11-1: Sectional specification for un-screened cables characterised up to 500 MHz — Horizontal and building backbone cables

National foreword

This British Standard is the UK implementation of EN 50288-11-1:2012.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
