

BSI Standards Publication

Multi-element metallic cables used in analogue and digital communication and control

Part 2-1: Sectional specification for
screened cables characterised up to 100
MHz — Horizontal and building backbone
cables

National foreword

This British Standard is the UK implementation of EN 50288-2-1:2013. It supersedes BS EN 50288-2-1:2003 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
