

BSI Standards Publication

Sound system equipment: headphones and earphones associated with personal music players — maximum sound pressure level measurement methodology

Part 3: measurement method for sound
dose management

National foreword

This British Standard is the UK implementation of EN 50332-3:2017.

The UK participation in its preparation was entrusted to Technical Committee EPL/108, Safety of electronic equipment within the field of audio/video, information technology and communication technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
