

BS EN 50388:2012

*Incorporating corrigenda August 2012,
April 2013 and August 2013*

BSI Standards Publication

Railway Applications — Power supply and rolling stock — Technical criteria for the coordination between power supply (substation) and rolling stock to achieve interoperability

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN 50388:2012, incorporating corrigenda August 2012, April 2013 and August 2013. It supersedes BS EN 50388:2005 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee GEL/9, Railway Electrotechnical Applications, to Subcommittee GEL/9/3, Railway Electrotechnical Applications – Fixed Equipment.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
