

BSI Standards Publication

Procedure for the assessment of the exposure to electromagnetic fields of workers bearing active implantable medical devices

Part 2-2: Specific assessment for workers with cardioverter defibrillators (ICDs)

National foreword

This British Standard is the UK implementation of EN 50527-2-2:2018.

The UK participation in its preparation was entrusted to Technical Committee GEL/106, Human exposure to low frequency and high frequency electromagnetic radiation.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
