

BSI Standards Publication

Railway applications — Technical parameters of train detection systems for the interoperability of the trans-European railway system

Part 1: Track circuits

National foreword

This British Standard is the UK implementation of EN 50617-1:2015.

The UK participation in its preparation was entrusted to Technical Committee GEL/9/1, Railway Electrotechnical Applications - Signalling and communications.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
