

BSI Standards Publication

**Railway applications — Fixed installations —
Requirements for the validation of
simulation tools used for the design of
electric traction power supply systems**

National foreword

This British Standard is the UK implementation of EN 50641:2020.

The UK participation in its preparation was entrusted to Technical Committee GEL/9/3, Railway Electrotechnical Applications - Fixed Equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
