

Timber structures — Test methods — Test of trusses for the determination of strength and deformation behaviour

The European Standard EN 595:1995 has the status of a
British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/518, Structural timber, to Subcommittee B/518/1, Test methods, upon which the following bodies were represented:

- Department of the Environment (British Board of Agrément)
- Department of the Environment (Building Research Establishment)
- Institution of Civil Engineers
- Institution of Structural Engineers
- Timber Research and Development Association
- Wood Panel Products Federation
- Coopted members

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 October 1995
