

Aluminium and aluminium alloys — Castings — Chemical composition of castings for use in contact with foodstuff

The European Standard EN 601:2004 has the status of a
British Standard

ICS 67.250; 77.150.10

National foreword

This British Standard is the official English language version of EN 601:2004. It supersedes BS EN 601:1995 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee, NFE/35, Light metals and their alloys, to Subcommittee NFE/35/5, Wrought aluminium and aluminium alloys, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 6 May 2004
