

Tests on electric and optical fibre cables under fire conditions —

Part 2-2: Tests for vertical flame propagation for a single small insulated wire or cable — Procedure for diffusion flame

The European Standard EN 60332-2-2:2004 has the status of a British Standard

ICS 13.220.40; 29.020; 29.060.20

National foreword

This British Standard is the official English language version of EN 60332-2-2:2004. It is identical with IEC 60332-2-2:2004. BS EN 60332-2-2:2004 is technically equivalent to BS EN 50265-2-2:1999, which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee GEL/20, Electric cables, to Subcommittee GEL/20/18, Fire testing, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 9 December 2004
