

Electrical insulating materials — Determination of electrolytic corrosion caused by insulating materials — Test methods

The European Standard EN 60426:2007 has the status of a
British Standard

ICS 17.220.99; 29.035.01

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 60426:2007. It is identical with IEC 60426:2007. It supersedes BS 5735:1979, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee GEL/112, Evaluation and qualification of electrical insulating materials and systems.

A list of organizations represented on GEL/112 can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 March 2007
