

Laboratory d.c. resistors

The European Standard EN 60477 : 1997, with the incorporation of its amendment A1 : 1997, has the status of a British Standard

ICS 17.220.20; 31.040.99

National foreword

This British Standard is the English language version of EN 60477 : 1997, including its amendment A1 : 1997. It is identical to IEC 60477 : 1974 and its Amendment 1 : 1997.

The UK participation in its preparation was entrusted to Technical Committee PEL/85, Measuring equipment for electrical and electromagnetic quantities, (formerly PEL/13/5), which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Textual note No abbreviation is specified in IEC 61010-1, amendment 2, for pollution degree. In Figure 2 of this standard, the suggested abbreviation “PD” has been used.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Power Electrical Engineering Standards Committee, was published under the authority of the Executive Board and comes into effect on 29 April 1977
