

Connectors for electronic equipment — Tests and measurements —

**Part 16-4: Mechanical tests on contacts
and terminations — Test 16d: Tensile
strength (crimped connections)**

ICS 31.220.10

National foreword

This British Standard is the UK implementation of EN 60512-16-4:2008. It is identical to IEC 60512-16-4:2008.

The UK participation in its preparation was entrusted to Technical Committee EPL/48, Electromechanical components and mechanical structures for electronic equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 29 August 2008
