

Industrial-process control valves —

Part 3-2: Dimensions — Face-to-face dimensions for rotary control valves except butterfly valves

The European Standard EN 60534-2-3:2001 has the status of a
British Standard

ICS 23.060.01; 25.040.40

National foreword

This British Standard is the official English language version of EN 60534-3-2:2001. It is identical with IEC 60534-3-2:2001. It supersedes BS 5793-3-2:1985 which will be withdrawn on 2004-06-01.

The UK participation in its preparation was entrusted by Technical Committee GEL/65, Measurement and control, to Subcommittee GEL/65/2, Elements of systems, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

From 1 January 1997, all IEC publications have the number 60000 added to the old number. For instance, IEC 27-1 has been renumbered as IEC 60027-1. For a period of time during the change over from one numbering system to the other, publications may contain identifiers from both systems.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, the EN foreword page, the ISO title page, a blank page, pages 1 to 5 and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

This British Standard, having been prepared under the direction of the Electrotechnical Strategy and Policy Committee, was published under the authority of the Standards Policy and Strategy Committee on 28 September 2001
