

Cavitation pitting evaluation in hydraulic turbines, storage pumps and pump turbines —

Part 2: Evaluation in Pelton turbines

ICS 27.140

National foreword

This British Standard reproduces verbatim IEC 60609-2:1997 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee MCE/15, Hydraulic turbines, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/ European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.
