

Insulation coordination for equipment within low-voltage systems —

Part 4: Consideration of high-frequency voltage stress

The European Standard EN 60664-4:2006 has the status of a
British Standard

ICS 29.080.30

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 60664-4:2006, incorporating Corrigendum October 2006. It is identical with IEC 60664-4:2005.

The UK participation in its preparation was entrusted to Technical Committee GEL/109, Insulation co-ordination for low voltage equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot of itself confer immunity from legal obligations.

Amendments issued since publication

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 28 April 2006
