

Safety requirements for electrical equipment for measurement, control, and laboratory use —

Part 2-041: Particular requirements for autoclaves using steam for the treatment of medical materials, and for laboratory processes

The European Standard EN 61010-2-041:1996 has the status of a British Standard

ICS 11.080; 19.080; 71.040.20

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee LBI/35, upon which the following bodies were represented:

- Association of British Health-care Industries
- Association of Clinical Pathologists
- British Dental Trade Association
- Central Sterilising Club
- Department of Health
- Health and Safety Executive
- Infection Control Nurses Association
- Institute of Healthcare Engineering and Estate Management
- Institute of Sterile Services Management
- Medical Sterile Products Association
- Public Health Laboratory Service
- Royal College of Pathologists
- Royal Pharmaceutical Society of Great Britain
- Society for General Microbiology
- ABHI Special Interest Section (Sterilizers and Disinfectors)

The following bodies were also represented in the drafting of the standard, through a subcommittee:

BLWA Ltd. (the Association of the Laboratory Supply Industry)

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 March 1997
