

Safety requirements for electrical equipment for measurement, control, and laboratory use —

**Part 2-045: Particular requirements for
washer disinfectors used in medical,
pharmaceutical, veterinary and
laboratory fields**

The European Standard EN 61010-2-045:2000 has the status of a
British Standard

ICS 11.080.20

National foreword

This British Standard is the official English language version of EN 61010-2-045:2000. It is identical with IEC 61010-2-045:2000.

The UK participation in its preparation was entrusted by Technical Committee LBI/35, Sterilizers, autoclaves and disinfectors, to Subcommittee LBI/35/1, Sterilizers — Electrical and operator safety, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This British Standard supersedes some provisions of BS 2745-1:1993, which is subject to amendment. In the interim period, the requirements of this British Standard override any conflicting requirements of BS 2745-1.

This British Standard is to be read in conjunction with BS EN 61010-1:1993 *Safety requirements for electrical equipment for measurement, control, and laboratory use, Part 1: General requirements*, which it supplements or modifies as detailed in the Foreword to EN 61010-2-045.

Cross-references

The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

Additional Information. Subclauses or figures which are additional to those in BS EN 61010-1:1993 are numbered starting from 101.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Sector Committee for Materials and Chemicals, was published under the authority of the Standards Committee and comes into effect on 15 July 2001
