National foreword

This British Standard is the UK implementation of EN 61193-3:2013. It is identical to IEC 61193-3:2013.

This edition includes information regarding sampling procedures for inspection by attributes. The international committee responsible for sampling procedures is ISO TC 69-5.

The user's attention is drawn to BS 6001-1 Sampling procedures for inspection by attributes for further information. Sampling schemes indexed by acceptance quality limit (AQL) for lot-by-lot inspection also provides useful information on sampling procedures.

The UK participation in its preparation was entrusted to Technical Committee EPL/501, Electronic Assembly Technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
