

Fibre optic interconnecting devices and passive components — Basic test and measurement procedures —

**Part 2-51: Tests — Fibre optic connector
test for transmission with applied
tensile load — Singlemode and
multimode**

ICS 33.180.20

National foreword

This British Standard is the UK implementation of EN 61300-2-51:2007. It is identical to IEC 61300-2-51:2007 incorporating corrigendum January 2015.

The UK participation in its preparation was entrusted by Technical Committee GEL/86, Fibre optics, to Subcommittee GEL/86/2, Fibre optic interconnecting devices and passive components.

A list of organizations represented on this committee can be obtained on request to its secretary.

The publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 August 2007
