

BSI Standards Publication

Industrial-process measurement and control - Data structures and elements in process equipment catalogues

Part 16: List of properties (LOPs) for density measuring equipment for electronic data exchange

National foreword

This British Standard is the UK implementation of EN 61987-16:2017. It is identical to IEC 61987-16:2016.

The UK participation in its preparation was entrusted to Technical Committee AMT/7, Industrial communications: process measurement and control, including fieldbus.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
