

BSI Standards Publication

Inductive components - Reliability management

National foreword

This British Standard is the UK implementation of EN 62211:2017. It is identical to IEC 62211:2017. It supersedes BS EN 62211:2004, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EPL/51, Transformers, inductors, magnetic components and ferrite materials.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
