High-voltage switchgear and controlgear

Part 211: Direct connection between power transformers and gas-insulated metal-enclosed switchgear for rated voltages above 52 kV (IEC 62271-211:2014)

National foreword

This British Standard is the UK implementation of EN 62271-211:2014. It is identical to IEC 62271-211:2014, incorporating corrigenda August 2015 and June 2017.

The text of IEC corrigenda August 2015 and June 2017 have been provided in their entirety at the beginning of this document. BSI's policy of providing consolidated content remains unchanged; however, in the interest of expediency, in this instance BSI have chosen to collate the relevant content at the beginning of this document.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
