

BS EN 62353:2014

BSI Standards Publication

Medical electrical equipment — Recurrent test and test after repair of medical electrical equipment

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN 62353:2014. It is identical to IEC 62353:2014. It supersedes BS EN 62353:2008, which will be withdrawn on 9 October 2017.

The UK committee voted against the first edition of this standard, however, the issues raised previously have now been resolved in this edition.

The UK participation in its preparation was entrusted by Technical Committee CH/62, Electrical Equipment in Medical Practice, to Subcommittee CH/62/1, Common aspects of Electrical Equipment used in Medical Practice.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
