Radiation protection instrumentation — Passive integrating dosimetry systems for individual, workplace and environmental monitoring of photon and beta radiation

National foreword

This British Standard is the UK implementation of EN 62387:2016. It is derived from IEC 62387:2012. It supersedes BS EN 62387-1:2012 which is withdrawn.

The CEN common modifications have been implemented at the appropriate places in the text. The start and finish of each common modification is indicated in the text by tags **Ⓒ** **Ⓒ**.

The title of this standard has also been modified by CEN.

The UK participation in its preparation was entrusted to Technical Committee NCE/2, Radiation protection and measurement.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
