

BSI Standards Publication

Semiconductor devices — Semiconductor interface for human body communication

Part 2: Characterization of interfacing
performances

National foreword

This British Standard is the UK implementation of EN 62779-2:2016. It is identical to IEC 62779-2:2016.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
