

Elastomeric seals — Materials requirements for pipe joint seals used in water and drainage applications —

Part 3: Cellular materials of vulcanized rubber

The European Standard EN 681-3:2000, with the incorporation of amendment A1:2002, has the status of a British Standard

ICS 23.040.80

National foreword

This British Standard is the official English language version of EN 681-3:2000, including amendment A1:2002.

The start and finish of text introduced by amendment is indicated in the text by tags A1 A1. Tags indicating changes to CEN text carry the number of the CEN amendment. For example text altered by CEN amendment A1 is indicated by A1 A1.

The UK participation in its preparation was entrusted to Technical Committee PRI/70, Elastomeric seals, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.
