

Anaesthetic workstations and their modules — Particular requirements

The European Standard EN 740:1998, with the incorporation of amendment A1:2004, has the status of a British Standard

ICS 11.040.10

National foreword

This British Standard is the official English language version of EN 740:1998 and incorporates its corrigendum published in December 1998, including amendment A1:2004. It supersedes BS 5724-2-13:1999 which has been withdrawn. Clause 111 of this standard, together with BS EN 737-2:1998 and BS EN 737-4:1998, supersedes BS 6834:1997 which has been withdrawn.

Attention is drawn to the Special National Conditions in Annex TT.

The UK participation in its preparation was entrusted by Technical Committee CH/44, Anaesthetic machines, breathing attachments, medical gas pipeline systems and hose assemblies, to Subcommittee CH/44/1, Anaesthetic machines, breathing systems and anaesthetic gas scavenging systems, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
