

Pressure equipment —

Part 7: Safety systems for unfired pressure vessels

The European Standard EN 764-7:2002 has the status of a British Standard

ICS 23.020.30

National foreword

This British Standard is the UK implementation of EN 764-7:2002, incorporating corrigenda September 2004 and June 2006.

When the reference to this European Standard has been published in the *Official Journal of the European Communities* (OJ), compliance with it will confer a presumption of conformity with the essential requirements covered by the standard in respect of the Pressure Equipment Directive (97/23/EC).

The UK participation in its preparation was entrusted by Technical Committee PVE/1, Pressure vessels, to Subcommittee PVE/1/19, Safety systems.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

Amendments issued since publication

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 13 June 2002
