

# Methods of test for masonry units —

## Part 20: Determination of flatness of faces of masonry units

This European Standard EN 772-20:2000, incorporating amendment A1:2005, has the status of a British Standard

ICS 91.080.30; 91.100.15

# National foreword

This British Standard is the official English language version of EN 772-20:2000, including amendment A1:2005, which is included in a package of new European Standards being prepared by CEN/TC 125 relating to aggregate concrete and manufactured stone and natural stone masonry units. No British Standard is superseded.

The start and finish of text introduced or altered by CEN amendment is indicated in the text by tags A1 A1. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by A1 A1.

The UK participation in its preparation was entrusted by Technical Committee B/519, Masonry and associated tests, to Subcommittee B/519/1, Masonry units, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.
