

Tests for general properties of aggregates

Part 1. Methods for sampling

The European Standard EN 932-1 : 1996 has the status of a
British Standard

ICS 91.100.20

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/502, Aggregates, upon which the following bodies were represented:

- Association of Consulting Engineers
- Association of Lightweight Aggregate Manufacturers
- British Aggregate Construction Materials Industries
- British Cement Association
- British Iron and Steel Producers' Association
- British Precast Concrete Federation Ltd.
- British Ready Mixed Concrete Association
- Department of the Environment
- Department of the Environment (Building Research Establishment)
- Department of Transport (Highways Agency)
- Electricity Association
- Institute of Concrete Technology
- Institution of Civil Engineers
- Institution of Structural Engineers
- Sand and Gravel Association Limited
- Society of Chemical Industry

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Civil Engineering Test Equipment Manufacturers' Association
- County Surveyors' Society
- Department of Trade and Industry (National Measurement Accreditation Service)

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 May 1997
